Summit AZ Local Pages - Phase 1 Summary

Date: 2026-09-03. Data window: Jun 3 - Sep 1, 2026 (Search Console, US).

Full list: Summit-AZ-Local-Pages-Priority-List-2026-09-03.csv (one row per page, sorted by priority).

1. The big picture

- 122 local pages. 3 clicks total in 3 months.
- 51 pages get impressions. 71 get none.
- Nothing ranks in the top 7. Best positions are 8 to 15 on a handful of pages.

2. What each page needs

Priority	Pages	Meaning	Action
1 Improve now	24	Getting impressions, position 8 to 30	Better content + title, push to page 1
2 CTR fix	2	Position 8 to 12, zero clicks	New title and description
3 Rewrite later	72	Indexed, almost no impressions	Full rewrite, one service batch at a time
4 Hold	24	Not indexed, duplicate of a sister page, or hub owns the demand	Fix the cause first

3. By service

Service	Improve now	CTR fix	Rewrite later	Hold
Sewer Line Repair	5	0	4	1
Tankless Water Heater	4	0	6	0
Emergency Plumber	3	0	6	1
General Plumbing	3	1	5	1
Water Leak Detection	3	0	2	5
Pipe Lining	2	0	8	0
Water Softener	2	0	5	3
Drain Cleaning	1	0	5	4
Water Pressure	1	1	7	1
Water Heater	0	0	8	2
Garbage Disposal	0	0	7	3
Fixture Installation	0	0	7	3

Sewer line repair has the most demand right now (Phoenix 1,763 impressions, Tempe 995, Mesa 863, Chandler 614). Drain cleaning is still a fine first batch because it is the plan's chosen template, but sewer should be batch 2.

4. Drain cleaning: first five pages

#	City	Today	Why this page
1	Mesa	1 impression	The hub /drain-cleaning/ takes all Mesa demand: 672 impressions on 29 Mesa queries. Fix the split, then the city page can win.
2	Fountain Hills	110 impressions, position 15	Ranks 7 to 10 on real queries, zero clicks. Closest to a win.

#	City	Today	Why this page
3	Phoenix	58 impressions, position 46	18 real queries, all on page 4 to 5.
4	Chandler	0 impressions	Flagship city, indexed, invisible.
5	Gilbert	0 impressions	Core East Valley city, indexed, invisible.

Not in batch 1: Scottsdale, Queen Creek, Tempe (not indexed and near-copies of each other, no baseline to measure). Batch 2.

5. Decisions needed before writing

1. **Mesa vs hub.** Hub becomes the East Valley page and the Mesa page owns Mesa. OTTO's hub title currently says "Mesa" and must change.
2. **Local facts.** Confirmed coverage per city, real jobs and reviews per city, claims to avoid.

6. Baseline for batch 1 (before any change)

Page	Clicks	Impressions	Position	Queries
Mesa city page	0	1	29	1
Hub (Mesa queries only)	0	672	~35	29
Fountain Hills	0	110	15	12
Phoenix	0	58	46	18
Chandler	0	0	-	0
Gilbert	0	0	-	0

Query detail: Summit-AZ-Drain-Batch1-Baseline-Queries-2026-09-03.csv. Check at 14, 28, 60 days.

7. Notes

- Ignore queries with "summit" in them (e.g. "drain cleaning summit", 209 impressions). Those are Summit County searches.
- Check each service's hub page before its batch. Hubs likely absorb city demand for sewer and tankless too.
