Introduction to Local SEO

1:09

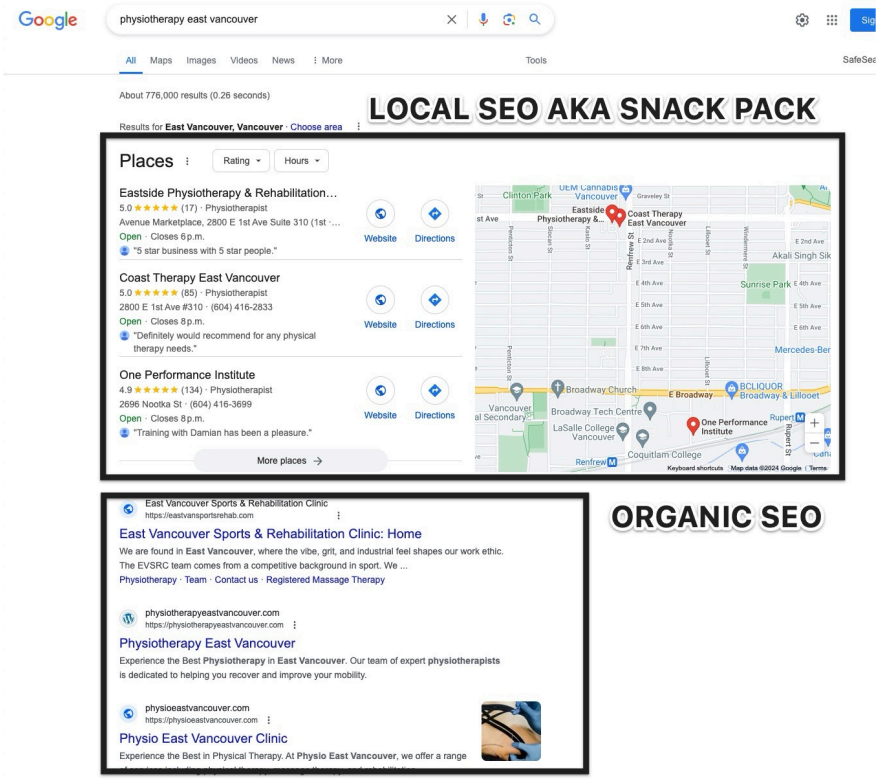

Alright you fucks, the name of the game for local seo is as follows:

- NAP consistency, NAP + map embeds → Name, address, phone number, iframe
- Reviews
- Getting a Google My Business
- Location vicinity, eg. how close you are to the searcher
- Number of direction prompts eg. how often people are trying to drive or walk to your GMB

PS: Before you mfs say shit like, yo you already talked about this on youtube, yes, yes I did, it's just a centralized place where people can go A→Z with rank and rents.

You're very welcome.
