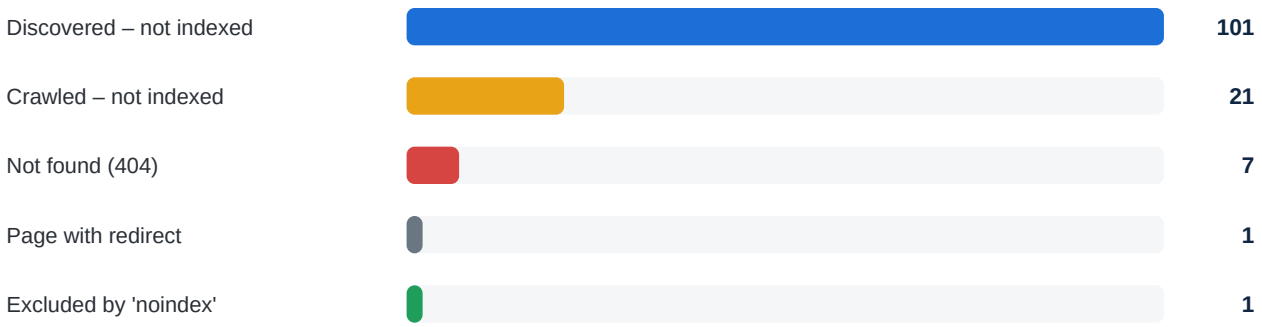
Google Search Console — Page Indexing Report

Alphalete Trenchless | Property: https://alphaletetrenchless.com/ | GSC data last updated 7/10/26 | Report date 7/24/26

131	19	5	150	12.7%
NOT INDEXED	INDEXED	REASONS	TOTAL KNOWN	INDEXED RATE

Not-Indexed Pages by Reason



Bottom line: Only 19 of 150 known URLs are indexed (12.7%). The dominant issue is the **101 “Discovered – currently not indexed”** URLs — almost entirely the programmatic city / service pages. Google knows they exist but is choosing not to crawl them, which is the classic signal of thin / doorway content plus the OTTO noindex history we’ve been tracking. A second cluster of legacy **/service-areas/{city}-co** pages is scattered across Crawled-not-indexed, 404, and redirect — evidence of an old URL pattern that was partly retired. Priority = make the programmatic pages genuinely unique so Google crawls and indexes them.

1. Discovered – currently not indexed

101 URLs

Google has found these but hasn't crawled/indexed them. Largest bucket — the programmatic pages. **Action: rewrite for uniqueness, then request indexing.**

Core pages (6)
/blog/, /careers/, /contact/, /free-video-inspection/, /privacy-policy-2/, /privacy-policy/

Drain cleaning — service-areas (15) — /service-areas/drain-cleaning-services-in-{city}/
black-forest, boone, buffalo-creek, calhan, canon-city, cascade, castle-rock, coal-creek, colorado-springs, fountain, littleton, lone-tree, monument, parker, pueblo

Hydro jetting — service-areas (9) — /service-areas/hydro-jetting-services-in-{city}/
canon-city, castle-rock, colorado-springs, fountain, littleton, lone-tree, monument, parker, pueblo

Trenchless sewer repair — service-areas (30) — /service-areas/trenchless-sewer-repair-{city}/
canon-city, castle-rock, colorado-springs, fountain, green-mountain-falls, kiowa, lake-george, larkspur, littleton, lone-tree, louviers, manitou-springs, matheson, monument, palmer-lake, parker, penrose, peyton, pine, pueblo, ramah, rockvale, security-widefield, sedalia, simla, usaf-academy, victor, wetmore, woodland-park, yoder

Commercial trenchless pipelining — services (22) — /services/commercial-trenchless-pipelining-{city}/
black-forest, boone, buffalo-creek, calhan, canon-city, cascade, castle-rock, coal-creek, colorado-springs, cripple-creek, elbert, elizabeth, florence, florissant, fountain, franktown, green-mountain-falls, littleton, lone-tree, monument, parker, pueblo

Sewer camera inspections — services (11) — /services/sewer-camera-inspections-in-{city}/
black-forest, buffalo-creek, canon-city, castle-rock, colorado-springs, fountain, littleton, lone-tree, monument, parker, pueblo

Service hubs & other (8)
/services/, /services/commercial-trenchless-pipelining/, /services/drain-cleaning/, /services/hydro-jetting/, /services/residential-trenchless-pipelining/, /services/sewer-inspection/, /terms-of-service/, /thank-you/

2. Crawled – currently not indexed

21 URLs

Crawled but rejected — usually a quality / thin-content signal. **Action: strengthen content or consolidate.**

URL PATH	DETAIL
/about-us	
/reviews	
/gallery	
/projects	
/sitemap	
/projects/announcing-alphalete-trenchless-services-launch	
/services/rehabilitation-services	
/services/excavation-services	
/services/assessment-inspection	
/service-areas/loveland-co	
/service-areas/greeley-co	
/service-areas/longmont-co	
/service-areas/glenwood-springs-co	
/service-areas/boulder-co	
/service-areas/lakewood-co	
/service-areas/centennial-co	
/service-areas/aurora-co	
/service-areas/littleton-co	
/service-areas/durango-co	
/service-areas/fort-collins-co	
/service-areas/montrose-co	

3. Not found (404)

7 URLs

Broken / retired URLs. The last two are automated bot probes (normal noise). **Action: 301-redirect the legacy -co pages to live equivalents.**

URL PATH	DETAIL
/service-areas/denver-co	Retired URL pattern
/service-areas/pueblo-co	Retired URL pattern
/service-areas/colorado-springs-co	Retired URL pattern
/service-areas/grand-junction-co	Retired URL pattern
/service-areas/arvada-co	Retired URL pattern
/wp-*.php	Bot probing — noise, ignore
/*	Wildcard probe — noise, ignore

4. Page with redirect

1 URLs

Not an error — page 301s to another URL. **Action: none needed unless the target is wrong.**

URL PATH	DETAIL
/service-areas/broomfield-co	Redirects elsewhere

5. Excluded by 'noindex' tag

1 URLs

Intentionally blocked WordPress system endpoint. **Action: none — correct as-is.**

URL PATH	DETAIL
/wp-admin/admin-ajax.php?action=pix_get_popup_content	WP system endpoint — correct, ignore

Recommended Priority Actions

1. Rewrite the 101 programmatic pages for genuine local uniqueness (proof, specifics, differentiated copy), then submit for indexing in batches.
2. Confirm the OTTO / MetaSync noindex directive is fully cleared on rebuilt pages so Google isn't blocked from indexing them.
3. 301-redirect the 5 legacy /service-areas/{city}-co 404 pages to their live canonical equivalents.
4. Review the 21 Crawled-not-indexed pages (about-us, reviews, gallery, -co areas) — thicken content or consolidate thin ones.
5. Ignore the noise: /wp-*.php, /* wildcard probes, the admin-ajax noindex, and the intentional redirect. Not fixes.
