Summit Plumbing Pros

Google Page Indexing Report

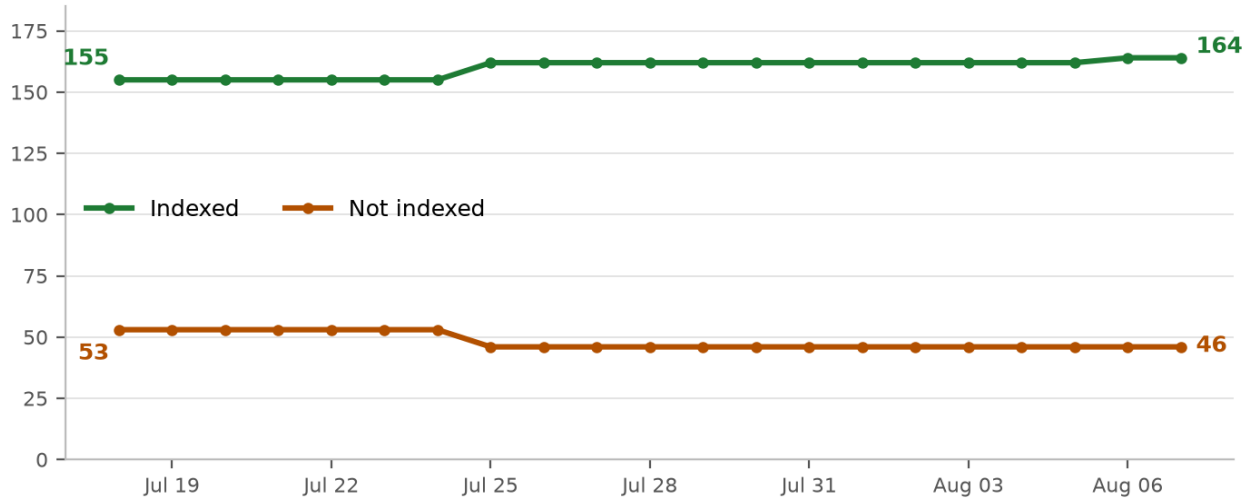
Property: https://www.summitplumbingpros.com/
Source: Search Console → Indexing → Pages (All known pages)
Reporting window: 2026-07-18 → 2026-08-14 (GSC data available through 2026-08-07 — see note)
Prepared: 2026-08-15

Index Status — Start vs. End of Window

Index Status	Jul 18	Aug 7 (latest)	Change
Indexed	**155**	**164**	**+9**
Not indexed	53	46	–7
Total known pages	**208**	**210**	**+2**

The headline: over this window indexing moved in the right direction on both lines — indexed pages **up 9** and not-indexed pages **down 7**. Total known pages held roughly flat (+2), so this was a period of Google *cleaning up and indexing existing URLs* rather than discovering new ones.

Daily Trend — Indexed vs. Not Indexed (Jul 18 – Aug 7)



Indexed pages stepped up from 155 to 164; not-indexed dropped from 53 to 46 — the improvement landed mainly around Jul 25 and held.

Not Indexed — Pages by Reason (with permalinks)

URL lists below are the current not-indexed pages, pulled from the per-reason GSC drilldown exports. Ordered most-actionable first.

Crawled - currently not indexed — 13 pages [Worth working on]

Google crawled these but chose not to index them yet. Best levers: stronger internal links, fresh content signals, and manual Request Indexing. Note several here are system URLs (feeds, wp-content, wp-includes) that are fine to leave unindexed.

- https://www.summitplumbingpros.com/emergency-plumber-in-apache-junction/
- https://www.summitplumbingpros.com/wp-content/plugins/gravityforms/images
- https://www.summitplumbingpros.com/drain-cleaning-services-queen-creek/
- https://www.summitplumbingpros.com/drain-cleaning-services-scottsdale/
- https://www.summitplumbingpros.com/blog/chemical-drain-cleaners-arizona-pipes/feed/
- https://www.summitplumbingpros.com/sewer-line-repair-queen-creek/
- https://www.summitplumbingpros.com/blog/category/water-heaters-blog/feed/
- https://www.summitplumbingpros.com/blog/category/plumbing-tips/feed/
- https://www.summitplumbingpros.com/blog/category/drains-sewers/feed/
- https://www.summitplumbingpros.com/garbage-disposal-service-chandler/
- https://www.summitplumbingpros.com/wp-includes/js/wp-emoji-release.min.js?ver=6.9.4
- https://www.summitplumbingpros.com/feed/
- https://www.summitplumbingpros.com/expert-drain-line-services/

Discovered - currently not indexed — 9 pages [Worth working on]

Google knows these URLs exist but hasn't crawled them yet (last crawled shows 1970-01-01 = never). Internal links from indexed pages and a sitemap ping help Google reach them.

- https://www.summitplumbingpros.com/drain-cleaning-services-tempe/
- https://www.summitplumbingpros.com/faucet-and-toilet-plumbing-services/
- https://www.summitplumbingpros.com/garbage-disposal-service-fountain-hills/
- https://www.summitplumbingpros.com/garbage-disposal-service-phoenix/
- https://www.summitplumbingpros.com/shower-bath-repair-installation-services/
- https://www.summitplumbingpros.com/slf-form-preview/
- https://www.summitplumbingpros.com/thank-you-page/
- https://www.summitplumbingpros.com/water-pressure-services-phoenix/
- https://www.summitplumbingpros.com/water-softener-installation-apache-junction/

Not found (404) — 4 pages [Cleanup]

Dead or wildcard URLs returning 404. Most are wp-content/plugins wildcards and an API endpoint — harmless, but worth confirming none are real pages.

- https://www.summitplumbingpros.com/wp-json/summit/v1/lead
- https://www.summitplumbingpros.com/wp-content/uploads/*
- https://www.summitplumbingpros.com/wp-content/plugins/*
- https://www.summitplumbingpros.com/wp-content/*

Page with redirect — 8 pages [Expected / healthy]

These correctly redirect to a live page — normal and healthy. No action needed.

- https://www.summitplumbingpros.com/gilbert/
- https://www.summitplumbingpros.com/emergency-plumber-in-fountain-hills-az/
- https://www.summitplumbingpros.com/scottsdale-plumbing/
- https://www.summitplumbingpros.com/mesa-plumbing/
- https://www.summitplumbingpros.com/tempe-plumbing/
- https://www.summitplumbingpros.com/queen-creek/
- https://www.summitplumbingpros.com/phoenix/
- https://www.summitplumbingpros.com/water-heater-services-phoenix/

Alternate page with proper canonical tag — 6 pages [Expected / healthy]

Duplicate URLs that correctly point a canonical tag at the primary version. No action needed.

- https://www.summitplumbingpros.com/general-plumbing-services-chandler
- https://www.summitplumbingpros.com/general-plumbing-services-san-tan-valley
- https://www.summitplumbingpros.com/special-offers
- https://www.summitplumbingpros.com/general-plumbing-services-apache-junction
- https://www.summitplumbingpros.com/slow-drains
- https://www.summitplumbingpros.com/general-plumbing-services-fountain-hills

Excluded by ‘noindex’ tag — 3 pages [Expected / intentional]

Deliberately kept out of the index via a noindex tag (offer/landing/search pages). No action needed.

- https://www.summitplumbingpros.com/drain-cleaning-special/
- https://www.summitplumbingpros.com/free-tankless-quote/
- https://www.summitplumbingpros.com/?s=%7Bsearch_term_string%7D

Not shown: **Redirect error** (1), **Soft 404** (1), and **Blocked – access forbidden 403** (1) each had a single page but were not part of the drilldown exports provided. Re-export those three reasons from GSC and I'll add their URLs too.

Appendix — Indexed Pages (164 URLs)

Full list of currently indexed URLs from the “Valid” export, most recently crawled first.
