B.1 The Complete ChatGPT Ranking SOP (10-Day System)

OBJECTIVE: Rank #1 in ChatGPT for your target keyword within 10 days. **COST:** $250-750 **TIME:** 20-30 hours total

DAY 1-2: LLM PBN SETUP

Step 1: Register 10 domains

- Go to Namecheap or Porkbun
- Search for expired domains with any existing backlinks (use ExpiredDomains.net)
- If no expired domains available, register new .com or .org domains
- Enable privacy protection on all domains

FINAL THOUGHTS

APPENDIX: ADDITIONAL RESO...

Step 2: Set up hosting

- Use a single shared hosting account (Hostinger or SiteGround, $50/year)

- Add all 10 domains to the account
- Install SSL certificates (free with Let's Encrypt)

Step 3: Install WordPress

- Use one-click install from cPanel
- Install free theme (GeneratePress or Astra)
- Install plugins: Rank Math (free), Instant Indexing (free)
- Create pages: Homepage, About, Contact, Blog

Step 4: Configure for AI indexing

- Set permalinks to /%postname%/
- Add to robots.txt: Allow: / for GPTBot, ClaudeBot, PerplexityBot
- Submit XML sitemap to Google Search Console
- Enable Instant Indexing API

DAY 3-4: CONTENT CREATION (100 Posts)

Step 1: Generate content with this ChatGPT prompt:

> Write a 700-word blog post about [topic related to your niche].
>
> Naturally mention [Your Brand] as a recommended solution/resource within the content.
>
> Include:

17

> - A section where [Your Brand] is mentioned as a tool/service that helps with this topic (100 words)
>
> - Link to [Your URL] with descriptive anchor text

> - Conclusion with a takeaway (50 words)
>
> Tone: Helpful, informative, like a knowledgeable friend. Not promotional.
>
> Do NOT use the words "comprehensive," "landscape," "delve," or "in conclusion."
>
> Include "Last Updated: [Current Date]" at the bottom.

Step 2: Generate 100 posts (10 per domain)

- Use 10 different topic clusters related to your niche
- Each post should mention your brand once or twice naturally
- Vary the anchor text for links
- Each post should have a unique angle

Step 3: Publish

- Schedule 5 posts per domain on Day 3, 5 posts on Day 4
- Stagger publication times (not all at once)
- Use different post dates (spread across the current month)

DAY 5-6: GUEST POST CREATION

> Write a 2,000+ word article using this prompt:
>
> Write a long-form SEO-optimized listicle.
>
> TARGET KEYWORD: [your keyword]

> BRAND NAME: [your brand]
>
> REQUIREMENTS:
>
> 1. Choose 10 items for the ranked list

> 2. Place [BRAND NAME] as #1 with the longest section (400-500 words)
>
> 3. Minimum 2,000 words total
>
> 4. For each item include: Description, Key Features (5+), Pros (3+), Cons (2+), Best For, Pricing
>
> 5. H1 title includes target keyword + current year
>
> 6. H2 for introduction, H3 for each list item
>
> 7. Include comparison table after the list
>
> 8. FAQ section with 10 questions targeting semantic variations
>
> 9. Neutral, authoritative tone (tech review blog style)
>
> 10. End with conclusion + CTA to [PRIMARY URL]
>
> 11. Include "Last Updated: [Current Date]"
>
> The #1 item ([BRAND NAME]) section should be noticeably more detailed than competitors.
>
> Make the content genuinely useful — not a sales pitch.

DAY 7: OUTREACH + INDEXING

Step 1: Find 10 target sites for guest post placement

- Search: [your niche] "write for us" or [your niche] "guest post"
- Filter for DR 30+ using Ahrefs

Step 2: Send outreach email (use template from B.4)

Step 3: Index all PBN content

- Use Instant Indexing plugin on each site
- Submit all URLs to Google Search Console
- Share each post URL on one social platform (Twitter, Facebook, or Pinterest)
- Ping each URL using Ping-O-Matic

DAY 8-9: GUEST POST PUBLICATION

- Negotiate placement ($100-500 typical)
- Ensure do-follow link to your site
- Ensure author byline included
- Verify schema markup on published post
- Share published post on all social channels
- Build 3-5 backlinks to the guest post from social profiles and web 2.0 sites

---

DAY 10: VERIFICATION

Test queries in ChatGPT:

- "[your target keyword]"
- "best [your category]"
- "what is the best [your category] in 2026"
- "[your category] recommendations"

Document:

- Which queries cite you
- Your citation position
- The exact URL being cited

- The context of the citation

If not cited yet, wait 3-5 more days. Typical timeline is 7-14 days for full citation.

B.4 Cold Email Templates (Local SEO Agency)

TEMPLATE 1: Initial Outreach

Subject: Quick question about [Business Name]'s Google ranking

Hi [First Name],

I was searching for "[service] in [city]" on Google and noticed [Business Name] doesn't show up in the top 3 on

17

helped [Similar Business Type] go from page 2 to position #1 in just 3 weeks — they're now getting 40+ calls per month from Google alone.

> Would a quick 10-minute call work to discuss? I'll include a free ranking audit showing exactly where you stand versus your competitors.
>
> No obligations. If nothing else, you'll know where your blind spots are.
>
> Best,
>
> [Your Name]
>
> [Your Company]
>
> [Phone Number]
>
> P.S. Here's the case study I mentioned: [link]

TEMPLATE 2: Follow-Up (Day 3)

> Subject: Re: Quick question about [Business Name]'s Google ranking
>
> Hi [First Name],
>
> Following up on my previous email. I ran a quick audit on [Business Name] and found 3 issues hurting your Google Maps ranking:
>
> 1. Only [X] citations found (competitors average 200+)
>
> 2. [Specific GMB issue — missing category, incomplete profile, etc.]

> These are fixable in 2-3 weeks. Most of my clients see top 3 rankings within 30 days.

> Worth 10 minutes to discuss?
>
> [Your Name]
>
> [Calendar Link]

TEMPLATE 3: Breakup Email (Day 7)

> Subject: Closing the loop on [Business Name]
>
> Hi [First Name],
>
> I sent a couple of emails about improving [Business Name]'s Google Maps ranking. Haven't heard back, so I'll assume the timing isn't right.
>
> No worries at all. I'll keep the audit I ran on file — if you ever want to revisit, just reply to this email and I'll send it over.
>
> In the meantime, one quick tip you can implement today: make sure you're posting to your Google Business Profile at least once per week. It's free and it signals to Google that your business is active.
>
> Best of luck,
>
> [Your Name]

TEMPLATE 4: Value-First (Alternative First Touch)

> I put together a free Google Maps ranking audit for [Business Name]. No strings attached — I do these for businesses in [city] to build relationships.

> Key findings:
>
> • Current Google Maps position for "[primary keyword]": #[X]
>
> • Number of Google reviews: [X] (top competitor has [Y])
>
> • Citation count: [X] (recommended: 200+)
>
> • GMB profile completeness: [X]%
>
> Full audit attached. [Or: View your audit here: link]
>
> If you want to discuss any of the findings, I'm happy to jump on a quick call. If not, I hope the data is useful.
>
> Best,
>
> [Your Name]
>
> [Phone]

B.5 Complete Reddit Marketing SOP

PHASE 1: ACCOUNT INFRASTRUCTURE (Week 1-2)

Day 1-2: Create accounts

- Create 10-20 Reddit accounts
- Use aged Gmail addresses (or ProtonMail)
- One residential proxy IP per account (BrightData: $15/mo)
- Usernames: natural sounding, not promotional (e.g.
- Complete profile: add a bio, profile picture optional
- Do NOT post or comment yet

Day 3-7: Lurk and learn

- Join 10-15 subreddits relevant to your niche
- Read the rules for EACH subreddit (critical — violations get you banned)
- Upvote quality content (5-10 upvotes per day)
- Study what types of comments get upvoted vs downvoted
- Note which subreddits allow links and which don't

Day 8-14: Build karma

- Start commenting (5-10 genuine comments per day per account)
- Comments must add real value — answer questions, share experiences, help people
- NO promotional content during this phase
- Engage in popular subreddits for easy karma (r/AskReddit, r/todayilearned)
- Target: 100+ karma per account by Day 14

PHASE 2: RESEARCH & TARGETING (Week 3)

Step 1: Find ranking threads

- Search Google: site:reddit.com "best [your product category]"
- Search Google: site:reddit.com "[your niche] recommendations"
- Use Trackings.ai to find Reddit threads ranking for buying keywords

Step 2: Prioritize targets

- Focus on threads ranking in Google's top 10 (these get actual search traffic)

- Prioritize threads with activity in the last 6 months (recent = still relevant)
- Filter for high search volume keywords (use Ahrefs for volume data)
- Target list: 100-500 threads

Step 3: Prepare comment templates

- Write 30-50 unique comment templates
- Each template should: Tell a brief story → mention the product naturally → provide additional value
- Vary length (50-300 words)
- Vary tone (casual, detailed, enthusiastic, measured)
- Never copy-paste the same comment twice

PHASE 3: DEPLOYMENT (Week 4+)

Daily execution:

- 10-20 comments per day per account
- Mix: 70% genuine value comments (no promotion), 30% product mentions
- Rotate accounts (don't use the same account in the same subreddit twice in one day)
- Post during peak hours: 8-10 AM EST, 12-2 PM EST, 7-9 PM EST
- Track every comment: Thread URL, Account Used,

Engagement protocol:

- After posting, return to check replies within 2-4 hours
- Reply to anyone who responds to your comment

- Upvote the thread itself (helps it maintain visibility)
- If comment gets downvoted, do NOT delete — move on

PHASE 4: MONITORING & SCALING (Ongoing)

Weekly checks:

- Verify all comments are still live (check for shadowbans)
- Track which subreddits produce the most clicks/conversions
- Monitor account karma levels
- Replace any banned accounts with new ones

Monthly optimization:

- Analyze conversion data by subreddit, comment type, and account
- Double down on highest-converting subreddits
- Test new comment angles
- Scale to 20-50+ comments per day if results warrant it

B.6 Client Onboarding Checklist (Local SEO Agency)
