GMB Location + Direction Manipulation (CTR)

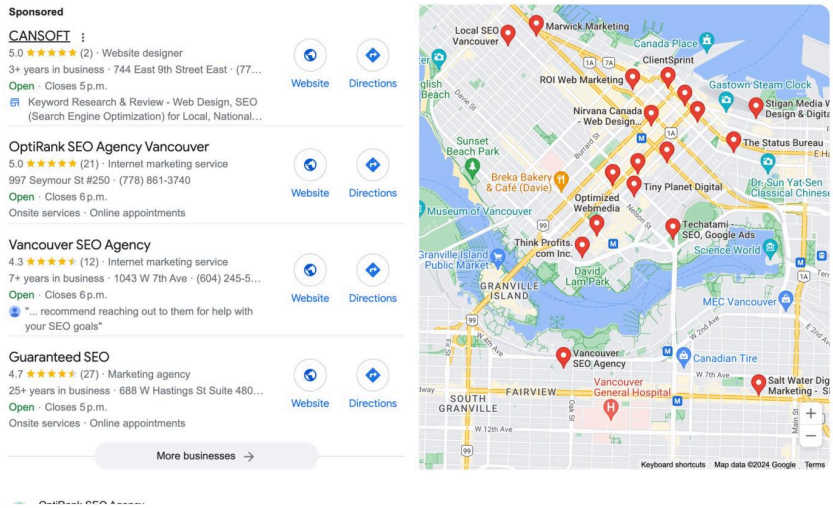

4:58

Importance of the GMB Location + Direction Manipulation (CTR)

I can't stress this one enough, the location of your GMB massively dictates how well you'll rank, especially in high competition niches.

eg. if you're trying to rank for seo agency vancouver, the snack pack results will all be in downtown Vancouver area, not in buttfuck nowhere suburbs

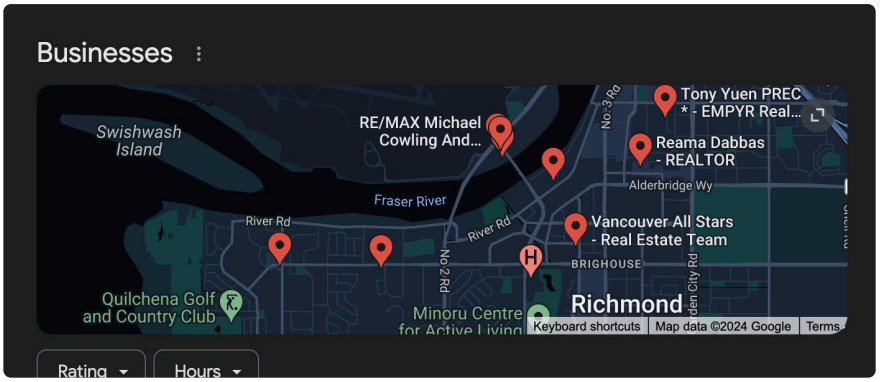

Search 17

So if you're trying to rank your Rank and Rent or client for a term that's in a high density area of the city, and your location isn't there. Congrats, you've clapped yourself, you've shot yourself in the leg and signed up for a marathon.

So you understand how important it is to register a central area for your GMB, great. Where EXACTLY should you register? The GMB snack pack will tell you exactly where to do so.

eg. Google "Richmond realtor" or "richmond bc realtor" if you're not in canada

I'd register an address that is visible on the map above. That's what Google determines to be the "city center".

Begging for Directions/DIY

- Every time you're going anywhere near your GMB, set your Google Maps direction location to your GMB and drive over

- Ask your friends to do the same

Software (expensive af)

- DIY software eg. Agency Assasin , we recommend https://www.serpempire.com/to/72582
- Pay some mfs to do it for you eg. from Legiit
